Roseville 2019 Districting Public Participation Kit

Each number indicates the total population of that "population unit" area.

Each district must have essentially equal population. If you are drawing a five-district map, each district must be close to 23,761 in population, with no more than a 2,376 difference between the largest and smallest.

If you are drawing a four-district map, each district must be close to 29,702 in population, with no more than a 2,970 difference between the largest and smallest.

Please use a thick dark-colored pen to draw your map, then submit it at City Hall or by email to Roseville@NDCresearch.com.

You can hand-deliver, mail, fax, scan and email, or photograph and email your map.
